

# TRUPIPE 100

## PRODUCT DESCRIPTION

Pad2Pad's **TruPipe 100** is a non-petroleum-based, natural oil extract with superior bonding capabilities to metal surfaces. It's lubricity and film strength characteristics make it an ideal choice for reducing torque and drag in extended-reach horizontal wells and coiled tubing applications. Typical loading is 1%-3% by weight. LPP is completely bio-degradable and easily miscible in water-based and oil-based fluid systems.

Property	Value
<b>Appearance</b>	Amber to Brown Liquid
<b>Specific Gravity</b>	0.90-0.95
<b>Density (lb/gal)</b>	7.5-8.0
<b>Viscosity (300rpm)</b>	100-150 cP
<b>Lubricity (friction reduction)</b>	70%-75%
